Methodology

This national survey was conducted among 1,000 likely general election voters. All interviews were conducted between November 21 and 23, 2020. All interviews were conducted online and survey invitations were distributed randomly within predetermined geographic units. These units were structured to correlate with actual voter turnout nationwide in a general election. The sample of 1,000 likely general election voters has an accuracy of +/- 3.1% at a 95% confidence interval. The numbers in this presentation have been rounded and may not equal 100%.
Regardless of who you voted for in the presidential election, do you believe it is fair or unfair for President Trump to ask for a recount in states where the ballot for president was as close as 1% or even closer?

With Joe Biden as President and the Democrats having a majority in the House of Representatives, if the Democrats were to win the two U.S. Senate races in Georgia in January, liberal Democrats would have full control of the federal government. Keeping this in mind, who do you want to win in Georgia’s runoff elections for the U.S. Senate?

The Democratic candidates who will help Joe Biden, Chuck Schumer and Nancy Pelosi pass their radical agenda.

The Republican candidates who will be a check and balance to block Joe Biden, Chuck Schumer, Nancy Pelosi and the Democrats in Washington from passing their Liberal Agenda.
