No Change Struggle Which of the following best describes how inflation and higher costs have impacted your personal and household financial situation? East 1) With inflation and higher prices, we are struggling to keep up and afford basic necessities. Midwest 2) We are not struggling but inflation and higher prices have had a significant impact on our finances and spending. South 3) Despite inflation and higher prices, we are still able to afford our normal spending without cutting back. **UND** 

President Biden's plan is to create what is called "global governance" under the World Health Organization's top foreign bureaucrat, rather than our form of representative, accountable government under the Constitution. Would you want decisions about your health made by people you elect, or an international official appointed by the Chinese Communist Party?

If President Biden gives the international appointed Director-General of the World Health Organization (WHO) responsibility and power to determine when the United States has a pandemic or other public health emergency – including what the federal government must do in response, from what you know about the US Constitution, do you think this would require a treaty vote by the US Senate subject to a public debate and approval by two-thirds of the U.S. Senate, or be decided solely by the President?

Regarding giving the international appointed Director General of the World Health Organization (WHO) responsibility and power to determine when the United States has a pandemic or other public health emergency – including what the federal government must do in response, are you more likely to vote for a candidate who supports...

A candidate who requires a treaty vote by the US Senate subject to a public debate and approval by two-thirds of the U.S. Senate.

OR,

A candidate who supports be decided solely by the President.

In response to the COVID-19 pandemic, the World Health Organization's Director-General urged us to wear masks, socially distance, lock-down, use "medical passports" to travel and be obliged to take experimental "vaccines." Under the Biden World Health Treaty, the WHO Director-General would be able to order Americans to comply with such dictates. Would you want the Director General telling you and your doctor what you have to do in the event he declares a "public health emergency of international concern?"

As you are probably aware, former President Donald Trump has been indicted 4 times over the last year, this is the first time in American history that a sitting or former President has ever been indicted. How much of a role would you say politics has played in these indictments against former President Trump?

Do you agree or disagree that there is a double standard and bias at Joe Biden's Department of Justice, the FBI and the IRS, where they continue to target Republicans like Donald Trump, but these same groups go easy and give sweetheart deals to Joe Biden and his family members when the evidence shows Joe Biden and his family have failed to pay their taxes, taken bribes and extorted money from our enemies such as the Communist Chinese and Russia?
